PANKAJ BADUWAL
MERN Stack Developer | Machine Learning Enthusiast
Coimbatore, India | ✉ baduwalpankaj@gmail.com | +91 63693 76350

SUMMARY

Aspiring **MERN Stack Developer** and **Machine Learning Enthusiast** with a strong foundation in **cloud technologies, web application development, and AI integration**. Passionate about building **secure, scalable, and data-driven solutions** that align with Zscaler's mission to enhance cloud security and digital transformation. Eager to contribute technical expertise and innovative thinking to cutting-edge projects in a dynamic environment.

EDUCATION

. B.Tech in Information Technology (Ongoing) **. +2 in Computer Overseer (2019–2021)**
KPR Institute of Engineering and Technology Dhambojhi Higher Secondary School, Nepal
. Honors in Artificial Intelligence & Machine Learning (Ongoing)
KPR Institute of Engineering and Technology

SOFT/TECHNICAL SKILLS

.Frontend: React.js, HTML5, CSS3, JavaScript, Bootstrap **.Tools:** Git, Postman, npm
.Backend: Node.js, Express.js, RESTfulAPIs, **.Databases:** MongoDB,SQL
.Additional: Python (Machine Learning, image processing), C programming, Java
.Soft skill:- communication, problem-solving, teamwork, adaptability, critical thinking, time management, creativity, attention to detail, leadership, and emotional intelligence.

PROJECTS

. AAPAGPT: Built an **AI-powered chatbot** using the **ChatGPT API**, enabling conversational interactions similar to OpenAI's.
· **Zerodha :** Full-stack responsive trading app using React, Node.js, MongoDB, and REST APIs.
· **Airbnb :** Responsive booking platform with user auth, listings, and filters using MERN stack.
· **Price Prediction App:** ML model to predict car/house prices using regression.
· **Solar Tracker:** IoT project to optimize solar panel efficiency.
· **Plant Info Website**: Web app providing details on medicinal plants.
· **University Q&A:** Student Q&A site with AI answers, polls, and email login.
. **Image Classification & Volume Control by Gesture**
Built a **real-time computer vision app** using Python, OpenCV, and Mediapipe for hand gesture-based control and image classification.

ACHIEVEMENTS

- ✧ **Top 25 Finalist, Intel GenAI National Hackathon** – Recognized for innovative AI solution
- ✧ **3rd Place, Science Day Tech Showcase** – Presented solar tracking IoT project
- ✧ **Participant, InnovSense Tech Fest** – Demonstrated creativity in web and AI solutions
- ✧ **Certified in MongoDB for Students** – MongoDB University (NoSQL databases)
- ✧ **Winner, PSG Premier League Cricket Tournament** – Secured 1st place showcasing teamwork and leadership on the field
- ✧ **AWS Cloud Foundations Certified**, *Amazon Web Services (AWS)*

PROFESSIONAL EXPERIENCE

Computer Operator – Synnet International Pvt. Ltd., Nepal (2021–2023)
Delivered IT support, managed data entry, printing, document handling, and user assistance
Maintained system operations and security across platforms
Trainee – Universal Institute of Computer, Nepal (2019–2020)
Supported system troubleshooting, database updates, and technical tasks during OJT
